Contact: 9304798037

#### **Summary**

- ❑ Experienced individual with approx. 4 years of development experience in Mainframe, COBOL, JCL, DB2, Oracle PL/SQL, scripts, procedures.
- ❑ Involved in many facets of software development including application, design, coding, testing and implementation.
- ❑ Strong logical and analytical skills leading to problem resolution within timelines.

#### **Key Experiences**

- ❑ Worked through all the project life cycle SDLC Software Development Life Cycle which is a Water fall methodology starting from high level design to system/integration testing.
- ❑ Prepared High level and Low Technical Design Document as per Business design document.
- ❑ Perform Impact analysis of system to identifying code changes.
- ❑ Written code for Cobol-DB2-IMS modules.
- ❑ Used various IBM utilities like DFSORT, IEBGENER, and IDCAMS to write various jobs depending on requirements.
- ❑ Created unit test plans and executed Unit Testing.
- ❑ Live movement of project into production with version control tool Endevor, Changeman.
- ❑ Provided permanent Fix in case of abends, defects, outages and major job failures.
- ❑ Post-production warranty support after successful deployment.
- ❑ Resolving tickets and incidents, maintaining system availability.
- ❑ Ensuring the Application Maintenance and Batch Monitoring.
- ❑ Handled Various Batch failures and On-Call failures after Root cause analysis.
- ❑ Worked on management tasks such as preparation of RUS, Metrics and Timesheet for entire team.

#### **Technical Skills**

- ❑ Primary Skills– COBOL, JCL, DB2, IMS, PLSQL, SQL
- ❑ Development Tools - ENDEVOR, CHANGEMAN, FILE-AID, SPUFI, SQL Developer, IBM Data Studio, Attachmate-EXTRA

#### **Education**

Bachelor of Engineering in Electronics and Telecommunication Engineering from Dr D Y Patil College of Engineering, Pune under Pune University.
